

Dear readers,

*Through these lines I am pleased to remind you that the current editorial staff of our magazine met for the first time ten years ago and - eagerly - began the great adventure to meet you by reading the proposed articles, interacting through your letters, reading your preferred books, getting in touch with the translators, seeing movies pointed out by you. All this always trying not to lose sight of the goal of the dialogue and exchange.*

*I am pleased to mention those who helped us with their enthusiasm and a spirit of service, without any economic return, but just to be close to all who are in tune with Psychosynthesis or who wish to find an evolutionary path.*

*They are important. They supported us with their time, patience, professionalism, understanding and creativity:*
