

BARCELONA

NOVEMBER 19 - 21st 2015

With an inclusive and integrative aim, the Congress is addressed to professionals and students in the world of psychology, psychotherapy, medicine, health, education, pedagogy, philosophy and, ultimately, anyone interested in the movement of Psychology and Humanist Psychotherapies.

We wish for a Congress full of creativity and communication among the participants, enabling us to continue to grow and weave a personal and professional history even more radically human.
