## TABLE OF CONTENTS

Dear readers,

*I imagine you sitting on a park bench with the magazine in your hand to finally enjoy the space and time in a new way.*

*As a garden satisfies our senses by looking at it while sitting, you are satisfying your psychic levels by calmly choosing the article or column that is in harmony with you right now.*

*As there are so many paths to choose from, that you will find ideas in the sentences taken from Roberto Assagioli's diary, which will give meaning and strength to your choices, you will discover the emotions and intuitions related to the historical moment of this incredible 2020 as well as in the poems of the members; you will be surprised in reading interesting articles, new or already tested areas and you will feel the breath of the planet through the links between the many psychosynthesists in the world who build jewels like pearls on a thread.*

*I have been with you for several years among these pages, I seem to know you even if silently, from afar, and I want to share with you a greeting from our President Maria Vittoria Randazzo:*

Dear members and friends of Psychosynthesis, being President of the Institute for these six years has been a unique experience, an honor, but mainly an act of service for which I have made available to the Institute skills acquired at other times and in others areas. And I'm grateful to life for allowing me this.

Now the baton has passed to Sergio Guarino so that he can grow the seeds of the future, and I am sure that he will be able to do it responsibly, with attention and loving understanding, together with all the directors of the Italian Centers.

A hug to all the Trainers, Leaders and Collaborators, who are the support and lifeblood of the Centers with their enthusiasm, commitment and creativity, and to the Members, for whom the Institute exists and spreads psychosynthesis so that it becomes a practice and an attitude towards life.

An affectionate greeting to the many friends who show us more and more interest and kindness.
